ENTREPRENEURSHIP

“From blueprints to breakthroughs, empowered women in construction are laying foundations for equality and lasting progress.”

- Dharmistha N. Patel

Ar. Sudiksha Parekh

Ar. Sudiksha, a Gold Medalist and CEPT Ahmedabad alumna, is the Founder of Imprints Architects, a Mumbai-based firm known for crafting distinctive, functional, and personalized spaces. Drawing inspiration from architectural visionaries like B.V. Doshi, Gurjit Singh Matharoo, and Miki Desai, her work reflects a deep commitment to innovation and thoughtful design. At Imprints, each project is treated as a unique journey—where creativity meets practicality. Guided by values of patience, perseverance, and integrity, she continues to design spaces that leave a lasting mark.

Ar. Sachin Suddala

Ar. Sachin is a Partner at Imprints Architects and a graduate of DY Patil School of Architecture, Navi Mumbai. He plays a pivotal role in the execution and management of the firm's projects, ensuring seamless translation of design intent into built form. Known for his patience, punctuality, and methodical approach, Sachin brings strong expertise in budgeting, scheduling, and on-site coordination. His determination to see projects through to completion, even under complex conditions, has made him a dependable pillar of the practice. Instrumental in fostering Imprints Architects' collaborative, studio-oriented work culture, he remains an integral part of the firm's operational strength and professional ethos.

Imprints Architects is a multidisciplinary design practice founded by **Ar. Sudiksha Parekh**, an architect with over 15 years of professional experience, enriched by her academic training and professional practice in Switzerland, and a decade-long partnership with **Ar. Sachin Suddala** that has significantly shaped the studio's design and execution philosophy. The firm was established to bridge the gap between the common man's creative aspirations and the realities of execution, with a strong belief that the true strength of design lies in how seamlessly an idea is translated from concept to construction.

The firm's iconic **thumbprint logo** signifies its dedication to individuality, mirroring the team's belief that architecture should convey meaning and purpose beyond just form. Supported by a team of experienced architects, consultants, and long-standing execution teams, the studio ensures a collaborative and well-coordinated approach to design and construction.

Sai Dham

"Located in Vashi, Navi Mumbai, this 2BHK apartment is a perfect blend of spirituality and modern design, reflecting the vision of its owners, Ghanshyam and Dimple. From the start, they knew they wanted their home to embody the serene presence of Sai Baba. The result is a peaceful, tranquil space, where every design detail echoes their deep devotion and creates a sanctuary of calm."

This 20-year-old home has been reimagined to create a harmonious fusion of timeless charm and sleek, modern aesthetics. With an expert balance of light tones, soft textures, and contemporary furnishings, the design exudes a serene and refreshing atmosphere, while carefully chosen traditional elements bring warmth, familiarity, and a sense of continuity. Each room is thoughtfully crafted to feel both open and inviting, with an emphasis on clean lines and an understated elegance that speaks to the best of modern living.

At the heart of this transformation is the seamless integration of a beloved Sai Baba statue, thoughtfully positioned to ensure it becomes a natural, serene focal point within the modern design. The statue's presence lends the space a spiritual grounding, bridging the past with the present in a way that feels both respectful and enriching. Subtle accents—whether through refined finishes, textured fabrics, or carefully selected decor—add depth and visual interest throughout the home, while the balanced lighting creates a soft, calming glow that unifies the spaces. The result is a residence that feels not only elegant and tranquil but deeply rooted in tradition, creating a space that is as much about comfort and connection as it is about style. The design speaks to a lifestyle that honors heritage while embracing the fluidity and openness of modern-day living, offering a serene sanctuary that is both familiar and refreshingly new.
